

Hack The Box | CPTS

Certified Penetration Testing Specialist

Machine name	GetSimple
Operative System	
IP address	10.129.68.217
Author	Javier González (iTrox)

Description

This document outlines the intrusion process on the first practice machine on the *Hack The Box* platform to achieve the ***Certified Penetration Testing Specialist*** certification. The information provided below is merely a write-up and not a technical/executive penetration test report, therefore, it only describes one of the processes that resolves the system.

I. Information Gathering

II. Vulnerability assessment

III. Exploitation

IV. Privilege escalation

V. Persistence

VI. Data exfiltration
